

The Labor Market Information Newsletter on Maine Economic Activity

Unemployment Rates for Out-of-School Youth Aged 16-24 United States, October 1993

Source: U.S. Department of Labor, Bureau of Labor Statistics.

The labor market success of out-of-school youth aged 16 to 24 in the United States, as measured by the unemployment rate, is linked directly to the level of education they have completed. High school dropouts had by far the highest jobless rates, while those who had attended or graduated from college had the lowest jobless rates.

Unemployment Insurance Quality Control

The Maine Department of Labor operates a Quality Control Program which audits the payment of unemployment compensation benefits to determine the accuracy of those payments. Each week twelve payments are randomly selected as an audit sample, and approximately 16 hours are devoted to reviewing every aspect of a single payment. The investigators interview the claimant and his or her last employer, audit all payroll records which affect the claim, verify documentation relative to issues such as pension receipt and dependency allowance, and conduct in-person interviews with each employer that the claimant listed as a work search contact.

The investigations for CY 1993 showed the biggest category of errors by percentage of dollars overpaid was work search issues (55.0 percent). Benefit year earnings issues accounted for the next largest amount overpaid (25.6 percent) followed by eligibility issues (9.8 percent), which includes ability to work, availability to work, and refusal of jobs or referrals to jobs.

Responsibility for the overpayments lay mostly with the claimants who were the cause of 78.6 percent of all dollars overpaid. The next largest category of responsibility was the agency at 10.9 percent, followed by instances where the claimant and the agency were jointly responsible for 6.3 percent.

Summary of Quality Control Investigations, CY 1992

Item	Number of Payments	Dollars Paid	Item	Percentage of Dollars	95 % Confidence Interval (+/-)
Population	640,797	98,406,748	Proper Payments	89.0	2.6
Sample	600	91,678	Overpayments	11.0	2.6
			Underpayments	0.8	0.5

Footnotes

1/ Labor force, employment, and unemployment data for all areas are by place of residence and are not seasonally adjusted. Estimates made independently for each labor market area have been benchmarked to and extrapolated from the Current Population Survey estimates for the state. All data exclude members of the Armed Forces. Data are rounded for publishing purposes. Employment and unemployment may not add to labor force due to rounding. MSA - Metropolitan Statistical Area. n/a indicates that the information was not available at the time of printing.

2/ Current estimates preliminary. Last month and year ago estimates revised.

3/ Kittery-York is the eight-town Maine portion of the Portsmouth-Dover-Rochester MSA which includes towns in both Maine and New Hampshire.
